EXPERIENCE

- Small-Business Website | Race Cleaning Services - Vancouver, WA** Dec. 2022 – Jan. 2023
- Working with React.js and plain CSS to create a mobile-responsive UI
[Live Project](#) | [Source Code](#)
- Full Stack Developer | Prosper IT Consulting - Portland, OR** Dec. 2022 – Dec. 2022
- Built a user-friendly management system by creating relevant user models, mapping such models to the database, and piecing together a frontend with a controller that provides support for asynchronous CRUD operations
 - Managed an effective workflow by communicating with the development team daily to address issues and explore solutions
- Read more about my collaborations on my [Project Summary](#)
- Food Server | Jerusalem Cafe - Vancouver, WA** June 2022 – Oct. 2022
- Responsible for ensuring salad prep areas were clean and well-stocked before each shift
 - Maintained full product knowledge of menu and specials
 - Always mindful of sanitation and safety considerations when handling food
 - Cleaned and reset tables promptly and efficiently for incoming customers, with a noticeable impact on reduced wait times
- Delivery Assistant | RC Brothers - Portland Metro Area** June 2020 – June 2022
- Loaded and sorted items into box trucks to assist deliveries from popular home improvement retailers like Home Depot and Ashley
 - Coordinated delivery schedules to ensure that services were consistently delivered in a timely and efficient manner

EDUCATION

- Certification in C# and .NET Development | The Tech Academy - Portland, OR** Dec. 2022
- Immersive technology boot camp with over 600 hours of instruction and hands-on programming.
- Studied core Computer Science principles, the internet, the World Wide Web, frontend web development, backend C# object-oriented programming, relational databases, version control, and project management
- High School Diploma | Seton Catholic College Preparatory - Vancouver, WA** June 2022
- College prep environment that empowers students to thrive, inspires moral development, and learning
