LinkedIn | GitHub | Portfolio

Dedicated developer with full-stack expertise. Recently contributed to a large codebase, creating a CMS for a Portland theater. Looking forward to collaborating on exciting projects with a development team and delivering quality products to clients.

SKILLS

Programming/Development: HTML | CSS | JavaScript | JSON | AJAX | TypeScript | C# | SQL

Frameworks/Libraries: ASP.NET MVC | EF | Next.js | React | jQuery | Bootstrap | Tailwind CSS

Database: MS SQL Server

IDEs: Visual Studio 2019/2022 | VS Code

Project Management: Agile/Scrum Methodologies | Azure DevOps Server

Version Control: Git

WORK EXPERIENCE

Full Stack Developer | Prosper IT Consulting - Portland, OR   Dec. 2022 - Jan. 2023

- Built a user-friendly management system for a Portland theatre's website by creating relevant user models, mapping such models to the database, and piecing together a frontend with a controller that provides support for asynchronous CRUD operations
- Managed an effective workflow by communicating with the development team daily to address issues and explore solutions
